INTERVIEW SUMMARY

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

On 17 March 2010, the undersigned applicant's representative called the Examiner to clarify the Office Action of December 4, 2009. The discussion was directed to the statement in the Office Action that the Examiner had assumed a relationship between vapor pressure and viscosity in the claims. Also discussed was the expression "ponderal ratio" which is disclosed in the specification and recited in the claim. The Examiner was to discuss this with her supervisor and since she would be out of the office on March 18 and 19, the undersigned would call the supervisor. On March 18, the undersigned called Examiner M. Fashoo, the supervisor. He suggested a Declaration to explain the use of the expression "ponderal ratio".

The undersigned concurs in the Interview Summary from the Examiner dated March 26, 2010.

Respectfully submitted,

Mar 29, 2010
Date

Robert M. Gamson
